His 2 year feud with the highly successful University Kansas Head coach Bob Timmons, and the beginnings of his friendship with the late, great Steve Prefontaine are key elements in his story. Ultimately his transfer to the Alabama Crimson Tide, raises much skepticism from his friends and advisors but lays the frame work for his future success.

The Texas City Disaster, 1947-Hugh W. Stephens 2010-01-01 On April 16, 1947, a small fire broke out among bags of ammonium nitrate fertilizer in the hold of the ship Grandcamp as it lay docked at Texas City, Texas. Despite immediate attempts to extinguish the fire, it rapidly intensified until the Grandcamp exploded in a blast that caused massive loss of life and property. In the ensuing chaos, no one gave much thought to the ship in the next slip, the High Flyer. It exploded sixteen hours later. The story of the Texas City explosions—America's worst industrial disaster in terms of casualties—has never been fully told until now. In this book, Hugh W. Stephens draws on official reports, newspaper and magazine articles, personal letters, and interviews with several dozen survivors to provide the first full account of the disaster at Texas City. Stephens describes the two explosions and the heroic efforts of Southeast Texans to rescue survivors and cope with extensive property damage. At the same time, he explores why the disaster occurred, showing how a chain of indifference and negligence made a serious industrial accident almost inevitable, while a lack of emergency planning allowed it to escalate into a major catastrophe. This gripping, cautionary tale holds important lessons for a wide reading public.

The Western Flyer-Kevin M. Bailey 2015-03-20 In January 2010, the Gemini was moored in the Swinomish Slough on a Native American reservation near Anacortes, Washington. Unbeknownst to almost everyone, the rusted and dilapidated boat was in fact the most famous fishing vessel ever to have sailed: the original Western Flyer, immortalized in John Steinbeck's nonfiction classic The Log from the Sea of Cortez. In this book, Kevin M. Bailey resurrects this forgotten witness to the changing tides of Pacific fisheries. He draws on the Steinbeck archives, interviews with family members of crew, and more than three decades of working in Pacific Northwest fisheries to trace the depletion of marine life through the voyages of a single ship. After Steinbeck and his friend Ed Ricketts—a pioneer in the study of the West Coast's diverse sea life and the inspiration behind "Doc" in Cannery Row—chartered the boat for their now-famous 1940 expedition, the Western Flyer returned
to its life as a sardine seiner in California. But when the sardine fishery in Monterey collapsed, the boat moved on: fishing for Pacific ocean perch off Washington, king crab in the Bering Sea off Alaska, and finally wild Pacific salmon—all industries that would also face collapse. As the Western Flyer herself faces an uncertain future—a businessman has bought her, intending to bring the boat to Salinas, California, and turn it into a restaurant feature just blocks from Steinbeck’s grave—debates about the status of the California sardine, and of West Coast fisheries generally, have resurfaced. A compelling and timely tale of a boat and the people it carried, of fisheries exploited, and of fortunes won and lost, The Western Flyer is environmental history at its best: a journey through time and across the sea, charting the ebb and flow of the cobalt waters of the Pacific coast.

When her engine ran out of fuel, she glided for two miles and landed at Hornell, New York. Even though she fell short of her goal, she had broken the existing cross-country distance record, and with her plane refueled, she got back in the air and headed for New York City where crowds waited to greet her.
