Speeches May 19 1940 Identify Main Idea

Their Finest Hour - Winston S. Churchill 1976

How Churchill Waged War - Allen Packwood 2018-10-30 An analytical investigation into Prime Minister Winston Churchill’s decision-making process during every stage of World War II. When Winston Churchill accepted the position of Prime Minister in May 1940, he insisted in also becoming Minister of Defence. This, though, meant that he alone would be responsible for the success or failure of Britain’s war effort. It also meant that he would be faced with many monumental challenges and utterly crucial decisions upon which the fate of Britain and the free world rested. With the limited available resources to the UK, Churchill had to pinpoint where his country’s priorities lay. He had to respond to the collapse of France, decide if Britain should adopt a defensive or offensive strategy, choose if Egypt and the war in North Africa should take precedence over Singapore and the UK’s empire in the East, determine how much support to give the Soviet Union, and how much power to give the United States in controlling the direction of the war. In this insightful investigation into Churchill’s conduct during the Second World War, Allen Packwood, BA, MPhil (Cantab), FRHistS, the Director of the Churchill Archives Centre, enables the reader to share the agonies and uncertainties faced by Churchill at each crucial stage of the war. How Churchill responded to each challenge is analyzed in great detail and the conclusions Packwood draws are as uncompromising as those made by Britain’s wartime leader as he negotiated his country through its darkest days.

Never Give In! - Sir Winston Churchill 2013-10-14 A great statesmen, a masterful historian whose writings won him the Nobel Prize for literature and a war-time leader with few peers, Sir Winston Churchill is remembered perhaps most clearly today for the sheer power of his oratory: the speeches that rallied a nation in its darkest hour and steered that nation for victory against the might of the Fascist powers. Never Give In! celebrates this oratory by gathering together Churchill's most powerful speeches from throughout his public career. Carefully selected by his grandson, this collection includes all his best known speeches - from his great war-time broadcasts to the "Iron Curtain" speech that heralded the start of the Cold War - and many lesser known but inspirational pieces. In a single volume Never Give In! provides a powerful testimony to one of the great public figures of the 20th century.

The Crime Against Kansas - Charles Sumner 1856

Secret Session Speeches - Winston S. Churchill 2013-03-31 This collection of addresses to the House of Commons during WWII provides unique insight into the British Prime Minister’s wartime leadership. During World War II, security was so precarious that the House of Commons was at times forced to meet in secret in order to keep its counsel from reaching the enemy. On five separate occasions between 1940 and 1942, Winston Churchill addressed the secret assembly. Those fateful speeches are reproduced in this collection. Here, Churchil delivers his immediate reactions to the fall of France, the discovery of a vast enemy armada in the English Channel, and the fall of Singapore, which may have been the most heartbreaking and costly military failure of Churchill’s career. These speeches offer intimate insight into Churchill’s thinking in this highly consequential period. Originally published in 1945, Secret Sessions Speeches provides fascinating context to some of World War II’s most significant events—and continue to carry great weight and meaning today.

Victory - Winston Churchill 1946

Congressional Record - United States. Congress 1969

The Roar of the Lion - Richard Toye 2013-08-22 Describes the reactions to Churchill's wartime speeches, documenting that there was criticism and dissent as well as the perceived mass enthusiasm by the people of Great Britain.

The Atlantic Charter - Douglas Brinkley 1994-05-10 In August 1941 Churchill and Roosevelt met in a secluded bay off the coast of Newfoundland. It was the first of their wartime meetings and in many respects the most significant. The Atlantic Charter, its result, proclaimed the two leaders’ vision of a new world order, a set of principles that would govern international relations with the coming of peace. This remarkable collection of essays is the result of an international conference of American, British, and Canadian scholars held at Memorial University of Newfoundland that marked the 50th anniversary of the historic meeting. The essays discuss both the Charter’s formulation and its long-term significance, and provide fascinating perspectives on the Second World War and its aftermath.

Ain’t I A Woman? - Sojourner Truth 2020-09-24 ‘I am a woman's rights. I have plowed and reaped and husked and chopped and mowed, and can any man do more than that? I am as strong as any man that is now’ A former slave and one of the most powerful orators of her time, Sojourner Truth fought for the equal rights of Black women throughout her life. This selection of her impassioned speeches is accompanied by the works of other inspiring African-American female campaigners from the nineteenth century. One of twenty new books in the bestselling Penguin Great Ideas series. This new selection showcases a diverse list of thinkers who have helped shape our world today, from anarchists to stoics, feminists to prophets, satirists to Zen Buddhists.

Speeches that Changed the World - Simon Sebag Montefiore 2015-05-12 Comprehensively updated with many new speeches including Earl Spencer's lament to “The extraordinary and irreparable Diana”, Nikita Khrushchev's secret speech of 1956 signalling the beginning of the end of Stalinist Russia, Patrick Pearces’s rousing funeral oration that fanned the flames of the Easter Rising, Kevin Rudd’s historic apology to Australia’s mistreated Aborigines and Barack Obama’s momentous US election night victory speech. Alongside these are the finest war cries of Winston Churchill, Martin Luther King’s prophetic “I have a dream” and “I've seen the promised land” speeches, the inspiring words of JFK and impassioned pleas from Nelson Mandela–the first at his trial in 1964 and the second on his election as president of South Africa in 1994. In addition are historic speeches from Elizabeth I, Charles I, Oliver Cromwell, George Washington, Napoleon Bonaparte, Abraham Lincoln, Emilienne Pankhurst, Mahatma Gandhi, Vladimir Lenin, Neville Chamberlain, Adolf Hitler, Joseph Stalin, Franklin D. Roosevelt, Charles de Gaulle, General George S. Patton, J. Robert Oppenheimer, Mao Zedong, Malcolm X, Richard M. Nixon, Pope John Paul II, Vaclav Havel, Elie Wiesel, Mikhail Gorbatchev and many other great historical figures. Speeches that Changed the World presents over 50 momentous and thought-provoking speeches from throughout history. Complete with a potted biography of each speaker, and telling the story of why each oration was significant and what happened as a result, this is a gripping history of the world told through its greatest and most impassioned speeches.

The 9/11 Commission Report - National Commission On Terrorist Attacks 2010-01-11 It has, improbably, been called uncommonly lucid, even riveting by The New York Times, and it was a finalist for the 2004 National Book Awards nonfiction honor. It is a literally chilling read, especially in its minute-by-minute description of the events of the morning of 9/11 inside the Twin Towers. It is The 9/11 Commission Report, which was, before its publication, perhaps one of the most anticipated government reports of all time, and has been since an unlikely bestseller. The official statement by the National Commission on Terrorist Attacks Upon the United States—which was instituted in late 2002 and chaired by former New Jersey Governor Thomas Kean—it details what went wrong on that day (such as intelligence failures), what went right (the heroic response of emergency service personnel), and how to avert similar future attacks. Highlighting evidence from the day, from airport surveillance footage of the terrorists to phone calls from the doomed flights, and offering details that have otherwise gone unheard, this is an astonishing firsthand account of contemporary history. While controversial in parts—it has been criticized for failing to include testimony from key individuals, and it completely omits any mention of the mysterious collapse of WTC 7—it is nevertheless an essential record of one of the most transformational events of modern times.
The Unrelenting Struggle, 1942-1945: Winston S. Churchill 2013-04-01 This stunning second volume of wartime speeches and broadcasts from the Nobel Prize–winning prime minister captures the troubled early days of WWII. Legendary politician and military strategist Winston S. Churchill was a master not only of the battlefield, but of the page and the podium. Over the course of forty books and countless speeches, broadcasts, news items and more, he addressed a country at war and at peace, thrilling with victory but uneasy with its shifting role on the world stage. In 1953, he was awarded the Nobel Prize for Literature for “his mastery of historical and biographical description as well as for brilliant oratory in defending exalted human values.” During his lifetime, he enthralled readers and brought crowds roaring to their feet; in the years since his death, his skilled writing has inspired generations of eager history buffs. This second volume in the series of the great orator’s wartime speeches, broadcasts, public messages, and other communications takes readers through the difficult years of 1940 to 1941. Faced with a challenging moment for the military as well as a groundswell of criticism from his government and his people, Churchill used his extraordinary command of language to inspire Britain to stand strong against Hitler and the growing Nazi threat. No fan of WWII military history should be without this extraordinary collection of seventy-two broadcasts, speeches, and messages to Parliament.

Conessional Record United States. Congress 1953

On War Carl von Clausewitz 1908

A Time for Choosing Ronald Reagan 1983 Speeches explore a variety of political and social issues, including tax reform, the conservative movement, nuclear disarmament, and the growth of government

The House of Morgan Ron Chernow 2010-01-19 Published to critical acclaim twenty years ago, and now considered a classic, The House of Morgan is the most ambitious history ever written about American finance. It is a rich, panoramic story of four generations of Morgans and the powerful, secretive firm they spawned, one that would transform the modern financial world. Tracing the trajectory of J. P. Morgan’s empire from its obscure beginnings in Victorian London to the financial crisis of 1987, acclaimed author Ron Chernow paints a fascinating portrait of the family’s private saga and the rarefied world of the American and British elite in which they moved—a world that included Charles Lindbergh, Henry Ford, Franklin Roosevelt, Nancy Astor, and Winston Churchill. A masterpiece of financial history—it was awarded the 1990 National Book Award for Nonfiction and selected by the Modern Library as one of the 100 Best Nonfiction Books of the Twentieth Century. The House of Morgan is a compelling account of a remarkable institution and the men who ran it, and an essential book for understanding the money and power behind the major historical events of the last 150 years.

The Boys Who Challenged Hitler Phillip Hoose 2015-05-12 "The true story of a group of boy resistance fighters in Denmark after the Nazi invasion”

Hello, Tomorrow! Cindy Trimm 2018-09-04 This book will help me craft my future by teaching me to make declarations from God’s Word that will set in motion His plan for my life and motivate me to believe good things from a good God so I can fulfill my destiny.

Science, the Endless Frontier United States. Office of Scientific Research and Development 1945 This influential report described science as “a largely unexplored hinterland” that would provide the “essential key” to the economic prosperity of the post World War II years.

The Threat of Pandemic Influenza Institute of Medicine 2005-04-09 Public health officials and organizations around the world remain on high alert because of increasing concerns about the prospect of an influenza pandemic, which many experts believe is inevitable. Moreover, recent problems with the availability and strain specificity of vaccine for annual flu epidemics in some countries and the rise of pandemic strains of avian flu in disparate geographic regions have alarmed experts about the world’s ability to prevent or contain a human pandemic. The workshop summary, “The Threat of Pandemic Influenza: Are We Ready?” addresses these urgent concerns. The report describes what steps the United States and other countries have taken thus far to prepare for the next outbreak of “killer flu.” It also looks at gaps in readiness, including hospitals’ inability to absorb a surge of patients and many nations’ incapacity to monitor and detect flu outbreaks. The report points to the need for international agreements to share flu vaccine and antiviral stockpiles to ensure that the 88 percent of nations that cannot manufacture or stockpile these products have access to them. It chronicles the toll of the H5N1 strain of avian flu currently circulating among poultry in many parts of Asia, which now accounts for the culling of millions of birds and the death of at least 50 persons. And it compares the costs of preparations with the costs of illness and death that could arise during an outbreak.

The Autobiography of Malcolm X Malcolm X 2015-11-26 The Autobiography of Malcolm X was intended to be a true autobiography, with the name of Alex Haley appearing not at all or as a ghost writer or as a mere contributor or assistant. However, with the assassination of Malcolm X having occurred in Harlem in New York City on February 21, 1965 just before this book could be published, it became necessary to reveal the important role of Alex Haley in creating this book.

The Spirit of Liberty Learned Hand 1960

Europe Unite, 1950 Winston S. Churchill 2014-02-11 The second volume in this collection of the Prime Minister’s oratory contains the post-war speeches that stoked patriotic fire in the waning days of Empire. Legendary politician and military strategist Sir Winston Churchill was a master not only of the battlefield, but of the page and the podium. Over the course of forty books and countless speeches, broadcasts, news items and more, he addressed a country at war and at peace, thrilling with victory but uneasy with its shifting role on the global stage. In 1953, he was awarded the Nobel Prize for Literature for “his mastery of historical and biographical description as well as for brilliant oratory in defending exalted human values.” During his lifetime, he enthralled readers and brought crowds roaring to their feet; in the years since his death, his masterful writing has inspired generations of eager history buffs. From 1945 to 1951, Churchill held fast to the political influence he had gained during World War II, serving as leader of the Opposition--the minority party in the English government. While some saw this new position as a demotion for a once-great political leader, he embraced the moment with all his might, addressing a nation strung in victory but increasingly aware that its long history of imperial domination was coming to an end. Even at this moment of relative calm in his career, Churchill’s rousing oratory still shines with brilliance and wit.

Free Speech On Trial Richard A. Parker 2003-07-21 Essays by twenty legal communication scholars consider the eligibility of free speech and the issues associated with its protection, in a collection that considers such topics as unregulated speech and the free market, the concept of obscenity as expression, symbolic language, and the consequences of pre-publication restraint. Simultaneous. (Politics & Government)

Speech & Language Processing Dan Jurafsky 2000-09

Straight Talk on Stuttering Lloyd M. Hult 2004 This new and expanded second edition is written for people who stutter and for those who interact with people who stutter, including caregivers, teachers, and speech-language pathologists. The text is presented in two parts. The first part includes basic information about the disorder and addresses common questions that people have about stuttering. What is stuttering? What causes it? How does it develop? Can it be prevented? This section also includes a new chapter entitled Living with Stuttering. The second part of the book discusses effective therapy approaches used with both children and adults who stutter. This part includes another new chapter, Evaluating People Who Stutter. The text is written in a very reader-friendly and practical manner. It represents a reasonably thorough review of what is known about stuttering and offers bottom-line conclusions rather than theoretical speculations and research findings that arrived at these conclusions. While the text includes the technical language used by speech-language pathologists in reference to stuttering, great care has been taken to explain each term. In addition, the book includes a helpful glossary. This unique and exceptional book is written by a clinician who stutters and who is passionate about helping others learn about stuttering. He addresses the reader, not as a guru of truth, but as a person who has gained
some understanding about stuttering through both his professional and personal experiences with the disorder.

They Called Us Enemy - Expanded Edition—George Takei 2020-08-26 The New York Times bestselling graphic memoir from actor/author/activist George Takei returns in a deluxe edition with 16 pages of bonus material! Experience the forces that shaped an American icon — and America itself — in this gripping tale of courage, country, loyalty, and love. George Takei has captured hearts and minds worldwide with his magnetic performances, sharp wit, and outspoken commitment to equal rights. But long before he braved new frontiers in STAR TREK, he woke up as a four-year-old boy to find his own birth country at war with his father's - and their entire family forced from their home into an uncertain future. In 1942, at the order of President Franklin D. Roosevelt, every person of Japanese descent on the west coast was rounded up and shipped to one of ten "relocation centers," hundreds or thousands of miles from home, where they would be held for years under armed guard. THEY CALLED US ENEMY is Takei's firsthand account of those years behind barbed wire, the terrors and small joys of childhood in the shadow of legalized racism, his mother's hard choices, his father's tested faith in democracy, and the way those experiences shaped the seeds for his astonishing future. What does it mean to be American? Who gets to decide? George Takes joins cowriters Justin Esinger & Steven Scott and artist Harmony Becker for the journey of a lifetime.

World Geography Today—Robert J. Sager 2005 Student text — Teacher's ed. — Chapter and unit test with answer key — Daily quizzes with answer key — Chapter and unit tests for English language learners and special-needs student with answer key — Critical thinking activities with answer key.

Churchill & Son—Josh Iredale 2021-03-30 The intimate, untold story of Winston Churchill's enduring yet volatile bond with his only son, Randolph "Ireland draws unforgettable sketches of life in the Churchill circle, much like Erik Larson did in The Splendid and the Vile." — Kirkus • "Fascinating... well-researched and well-written." — Andrew Roberts • "Beautifully written... A triumph." — Damien Lewis • "Fascinating, acute and touching." — Simon Sebag Montefiore We think we know Winston Churchill: the bulldog prime minister, the ever-present cigar, the wit and wisdom that led Great Britain through the Second World War. Yet away from the House of Commons and the Cabinet War Rooms, Churchill was a loving family man who doted on his children, none more so than Randolph, his only boy and Winston's anointed heir to the Churchill legacy. Randolph may have been born in his father's shadow, but his father, who had been neglected by his own parents, was determined to see him go far. For decades, throughout Winston's climb to greatness, father and son were inseparable—dining with Britain's elite, goosequipping and welling Champagne at high society parties, holidaying on the French Riviera, touring Prohibition-era America. Captivated by Winston's power, bravery, and charisma, Randolph worshipped his father, and Winston obsessed over his son's future. But their love was complex and combustible, complicated by money, class, and privilege, shaded with ambition, outsize expectations, resentments, and failures. Deeply researched and magnificently written, Churchill & Son is a revealing and surprising portrait of one of history's most celebrated figures.

Churchill—Paul Addison 2006 During the Second World War, Winston Churchill won two resounding victories. The first was a victory over Nazi Germany, the second a victory over the legion of sceptics who had derided his judgement, denied his claims to greatness, and excluded him from high office on the grounds that he was sure to be a danger to King and Country. In this incisive new biography, Paul Addison examines both the life of the most iconic figure in twentieth-century British history, and also the battle over his reputation, which continues to this day.

BK English—J. A. Senn 2001

Global Trends 2040—National Intelligence Council 2021-03 "The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." - Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world. - Demographics by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics: increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology: the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

Remembering Slavery—Ira Berlin 2011-07-26 "A Best Book of the Year" —Library Journal and Booklist Using excerpts from the thousands of interviews conducted with ex-slaves in the 1930s by researchers working with the Federal Writer's Project, this astonishing collection makes available in print the only known recordings of people who actually experienced slavery—recordings that had gathered dust in the Library of Congress until they were rendered audible for the first time specifically for this collection. Heralded as "a minor miracle" (Ted Koppel, Nightline), "powerful and intense" (Atlanta Journal Constitution), and "unvaluable" (Chicago Tribune), Remembering Slavery is sure to enrich readers for years to come. "Gripping and poignant... Moving recollections fill a void in the slavery literature." —The Washington Post Book World "Chilling [and] riveting... This project will enrich every American home and classroom." —Publisher's Weekly "Quite literally, history comes alive in this unparalleled work." —Library Journal "Ira Berlin's fifty-page introduction is as good a synthesis of current scholarship as one will find, filled with fresh insights for any reader." —The San Diego Union Tribune

The Second Reconstruction—Gary Donaldson 2000 This text traces the history of the civil rights movement in the years following World War II, to the present day. Issues discussed the Civil Rights Act of 1964, the Voting Rights of 1965, and the Northern Ireland ghetto's.
