The Immune System Peter Parham Study Guide

Transplant rejection - Wikipedia
The first successful organ transplant, performed in 1954 by Joseph Murray, involved identical twins, and so no rejection was observed. Otherwise, the number of mismatched gene variants, namely alleles, encoding cell surface molecules called major histocompatibility complex (MHC), classes I and II, correlate with the rapidity and severity of transplant rejection.

Toxoid - Wikipedia
A toxoid is an inactivated toxin (usually an exotoxin) whose toxicity has been suppressed either by chemical or heat treatment, while other properties, typically immunogenicity, are maintained. Toxins are secreted by bacteria, whereas toxoids are altered form of toxins; toxoids are not secreted by bacteria. Thus, when used during vaccination, an immune response is mounted and immunological

Antigene - Wikipedia
Un antigene è una molecola in grado di essere riconosciuta dal sistema immunitario come estranea o potenzialmente pericolosa. Si definisce invece immunogena una sostanza in grado di stimolare il sistema immunitario a tentare di produrre anticorpi contro di essa. La sostanza può essere di provenienza ambientale o formarsi all'interno del corpo. Il sistema immunitario uccide o neutralizza
